PROFILE

I'm a Full Stack Developer skilled in React.js, Spring Boot, PostgreSQL & Docker. I thrive in team environments, continuously learning new technologies and solving complex problems. Always open to learning new things and exploring new opportunities.

WORK EXPERIENCE

Full Stack Developer (Moxelle)

04.07.2025 - PRESENT

- Motivated full-stack developer with hands-on experience in Node.js, React.js and PostgreSQL.Strong foundation in backend API Development, frontend component architecture and database design. Comfortable working across the full development lifecycle and collaborating in team environments. Eager to learn, grow and contribute to high-quality software solutions.

Full Stack Developer (Inteligenta)

01.03.2024-31.08.2024

- I am working more deeply on the same ERP system project, gaining a better understanding of its functionality and architecture. As I make progress, I continue to contribute to both frontend and backend development, improving the system's performance and features.

Part-time Full Stack Developer (Inteligenta)

01.11.2023-31.12.2023

- Deepened my involvement in the project, taking on both frontend and backend tasks using Spring Boot, Java, and React.js. Focused on delivering high-quality work on time while striving to absorb as much knowledge as possible from the team.

Internship at Inteligenta - Web Development

03.07.2023-03.10.2023

- Worked in a team following Agile methodologies, including sprints and daily meetings. Contributed to an ERP system for MVR using Spring Boot, Java, and React.js. Gained experience in collaborative development, version control with GitLab, and working in a structured development process.
