EXPERIENCE

Moxelle

Full-Stack Developer

Skopje - North Macedonia

06/2022 – 01/2026

- Collaborated with international clients and communicated effectively with team and management to adapt websites to evolving industry standards, ensuring exceptional user experiences.
- Designed scalable ReactJS components and maintained high code quality by adhering to guidelines and the atomic commit model.
- Wrote detailed documentation for future reference, enhancing team understanding and project continuity.
- Divided complex tasks into manageable parts and coordinated with management and development teams to ensure efficient project completion.
- Reviewed peers' code, provided constructive feedback, and tracked and fixed bugs to maintain application stability and performance.
- Researched and implemented best practices, adapting them to team workflows and providing technical guidance to enhance development processes.
- Mentored and trained over five interns, sharing knowledge and supporting their career growth, fostering a collaborative and growth-oriented team environment.

Pikcell Group

Full-Stack Developer

Skopje - North Macedonia

06/2021 – 05/2022

- Developed in-house automation software and collaborated with local clients to optimize user experience.
- Created reusable and scalable ReactJS components for consistent and efficient projects.
- Coded, tested, and implemented commits, builds, and updates in React JS to maintain software quality.
- Communicated with team and management to adapt clients' websites to evolving industry standards.
- Designed and developed state-of-the-art user interfaces to enhance user engagement.
