TECHNICAL SKILLS

BACK-END TECHNOLOGIES

Python (Django, Flask, FastAPI) |
Node.js (Express) | PostgreSQL |
Sequelize

FRONT-END TECHNOLOGIES

HTML5 | CSS | JavaScript | JQuery |
TypeScript | Angular | React

COMPUTER SKILLS AND COMPETENCES

Microsoft office | Git | Gitlab | Github
| SVN

SOFT SKILLS

Teamwork and Collaboration,
Organization, Problem solving,
Communication, Time management

Teona

Full-stack developer experienced in building functional web applications and contributing across the development cycle. Comfortable working in dynamic environments and focused on delivering reliable, maintainable solutions for impactful projects.

EXPERIENCE

[01/07/2025 – Present] – Full-stack Software Developer - Moxelle

- * Developed and maintained backed services using Node.js (Express), implementing well-structured RESTful APIs with clear service and controller layers.
 - * Designed and managed relation data models using PostgreSQL with Sequelize ORM.
 - * Implemented frontend features with React, building reusable, responsive components using styled-components.
 - * Integrated OpenAI API to deliver AI-driven functionality, including prompt design.
 - * Contributed to application architecture and system design, focusing on scalability, performance and maintainability
 - * Worked in an agile environment, collaborating closely with PMs, clients and an international development team
- Knowledge: Node.js, Express, PostgreSQL, Sequelize, React, TypeScript

[01/02/2024 – 01/05/2025] - Junior Software Developer - Quipu GmbH

- * Developed new pages using Python with Django framework and React with Redux for frontend
 - * Used integrated APIs and external services, establishing real-time data fetching
 - * Integrating remote procedure calls (RPCs) on an internal server to interact with the data sources, ensuring backend-to-database communication
 - * Contributed to migrating the project from Flask to Django and improving legacy parts of the code
 - * Optimizing and maintaining of the application by fixing bugs, adding refinements and features
 - * Worked closely with cross-functional teams to align with the business goals
 - * Managing tickets and time monitoring in Azure DevOps
 - * Following Agile methodologies, collaborating in sprint and daily standups - completed Agile Training
 - * Collaboration with international colleagues
- Knowledge: Python, Django, JavaScript, React

[1/05/2023 – 1/02/2024] – PerpetuumCode

- * Work hand in hand with Project Managers to ensure company's goals are applied and achieved.
 - * Building a diverse set of tools and web applications with, NodeJS, Python.
 - * Developed, tested and implemented new API using Python programming and Angular2 for frontend.
 - * Using Alembic for database versioning.
- Knowledge: Gitlab CI/CD, Docker, Python, FastApi, Typescript, Angular, PostgreSQL

EDUCATION

[1/10/2020 – 26/12/2024]

University Ss. Cyril and Methodius, Faculty of Computer Science and Engineering, Skopje, North Macedonia
Bachelor of Computer Science and Engineering
